

# Harvest Calendar - 2011 Season

Gibbet Hill Farm is dedicated to growing fresh, sustainable produce for its sister businesses, Gibbet Hill Grill, the Barn at Gibbet Hill, Scarlet Oak Tavern, and Fireside Catering.

2011 is shaping up to be a great year! We have expanded our offering to include fruit for the first time, planting strawberries, blackberries, and raspberries. We have also installed hoop houses, which will extend the growing season from April through November.
